

Short Listed Projects

TAMPA BAY RIA

WESTSHORE INTERMODAL CENTER

Location: Westshore Business District, Tampa, FL

Project Description

Multimodal transportation hub that will integrate transit, airport connectivity, rideshare services, parking, and provide pedestrian access to a future I-275 median transit station while supporting mixed-use development opportunities, and provide office, retail, hotel, and residential uses. By linking Tampa International Airport, the Westshore Business District, Downtown Tampa, and transit services across Hillsborough, Pasco, and Pinellas counties, the project enhances regional mobility, supports economic growth, improves access to major employment and entertainment destinations, and establishes a foundation for future transit expansion.

INTERSTATE 275 EXPRESS LANES PROJECT

Location: Tampa, FL

Project Description

Proposes the addition of two managed express lanes along I-275 between Lois Avenue and Ashley Drive to provide more reliable travel times and improve regional mobility. The project also includes operational improvements to Ashley Drive, enhancing connectivity between Tampa International Airport, Downtown Tampa, and major employment and activity centers throughout the region.

TAMPA INTERNATIONAL AIRPORT TO DOWNTOWN TAMPA PREMIUM TRANSIT

Location: Tampa, FL

Project Description

Examines a premium transit connection linking Tampa International Airport, the Westshore Intermodal Center, and Downtown Tampa. The project would enhance regional mobility and multimodal connectivity by providing a reliable, high-frequency transit service with strategic station connections to key employment, transportation, and activity centers throughout the Tampa Bay region.

ADVANTAGE ALT 19 PREMIUM TRANSIT CORRIDOR

Location: St. Petersburg, Largo, Seminole, and Clearwater, FL

Project Description

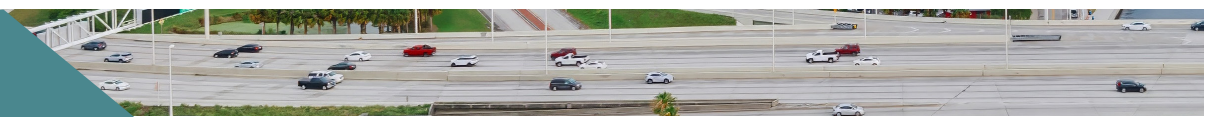

A corridor-based transit service connecting St. Petersburg, Largo, and Clearwater through enhanced transit operations, including new stations, transit signal priority improvements, and expanded bus service along Alternate 19. The project would improve regional mobility and transit accessibility throughout Pinellas County by providing a reliable and efficient transit connection between major population, employment, and activity centers and decongest a high-volume road.

INVISION STREETCAR EXTENSION

Location: Downtown Tampa, FL

Project Description

A 1.3-mile extension of the existing Tampa Streetcar system, expanding service from Downtown Tampa into the Tampa Heights area through the construction of a fixed-guideway alignment and 10 new stations. The project will enhance multimodal connectivity, improve access to employment, residential, and entertainment destinations, and support continued economic growth and redevelopment along the corridor.
